# Electric Water Heater

Model T

Model AT

Model B

F-16

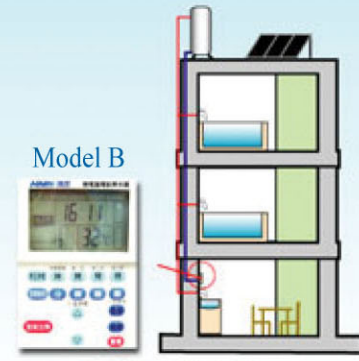

EH-1206

1. Better quality, longer product life-  
Naro-tech Tank manufacturing-procedure  
Adopting "Nero Electro-brush plating Technology"  
Application for storage tank inlet metal-treatment, to prevent the rust and etching, rising pressure-resistance, ensure the longer life of heater.
2. Energy-saving, Convenience, Comfort-  
Digital Heater-temperature Control System
  - a. Water thermal setting adjustable to fit the different needs of variable climate and usage-change, saving electricity waste of non-necessary water-heating.
  - b. Water thermal-difference detecting device, instant water-heating for continuously hot water supply, no worry for chill shower.
  - c. Multi-section timer and temperature control, wired remote controller, convenient for home use.
3. Wall-hanged, above-ceiling installation designed for modern family residence.
  - a. Generating more hot water than others in the same time, replacing the traditional large-capacity model for the saving of both energy and interior space.
  - b. In stead of risky instantaneous electrical or gas-ueled heaters, prevent the dangerous of gas-explosion, stream-explosion and CO toxication.

horizontal type

Remote control

4. **Models of all capacities supplied, Agent wanted! OEM/ODM cooperation welcomed!**
- Mass-production for heater capacities of 3g1., 8, 10, 15, 20, 30 to 200g1. model, vertical and horizontal type with stands or hanger.
  - Leading in Innovation, R&D, manufacture procedure and productivity, NO.1 provider of electric water heater in Taiwan.
5. > ISO-9001 / 9002 quality certification proofed  
> Chinese National standard (CNS) certificated  
> "Energy Label" certification from Bureau of Energy, Ministry of Economic Affairs Taiwan.  
> Quality ready for UL / CE identification requirements.

6. **LOT, Best in class with Quality, Innovation and Manufacturing**

Insisting the pursuit of best product quality in world class, LOT choose only the best for heater-production.

Adopting graded materials like stainless steel and "Nero Electro-brush plating steel", quality power-control module and digital control interface, LOT provides Best-in-class quality with lowest reasonable cost, delivering satisfactions for verity costumers from different critical markets around the world. LOT provides only the high-value products, helping partners earning higher profit in product sales.

Small wall-hanged heater suit for modern apartment residence.
